### DETAILED ACTION

This is a response to Applicant's amendment filed August 27, 2001.

Claims 1-4, 8, 9, 11, 15-18, and 21-22 have been amended. Claim 28 has been added. Claim 6 has been canceled.

The rejections of claims 4 and 21 under 35 U.S.C. 112 second paragraph have been obviated with the amendments to these claims.

#### ***Claim Rejections - 35 USC § 112***

Claim 28 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 28 contains the trademark/trade name "ACYCLOVIR", line 2, "VALACICLOVIR", line 3, etc. . . . Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case, the trademark/trade name is used to identify/describe nucleosides and, accordingly, the identification/description is indefinite.

### ***Specification***

The use of the trademarks "ACYCLOVIR", line 2, "VALACICLOVIR", line 3, etc. . . have been noted in this application. It should be capitalized wherever it appears and be accompanied by the generic terminology.

Although the use of trademarks is permissible in patent applications, the proprietary nature of the marks should be respected and every effort made to prevent their use in any manner which might adversely affect their validity as trademarks.

### ***Claim Objections***

Claims 1-5 and 7-22 and 28 are objected to because of the following informalities:

In the elected embodiment for A, tetrahydrofurodihydrofuranyl-O-C=O- should be unsubstituted.

### ***Allowable Subject Matter***

Upon additional consideration, the Examiner has further limited the generic concept of claim 1. Applicants should limit generic claim 1 in the following manner: G should be limited to H and C<sub>1</sub>-C<sub>4</sub> alkyl, and E should be limited to the amino-benzothiazolyl compound shown in the specification on page 37, example 59 (see -S(O)<sub>2</sub>-E).
